## Commander Remote Control Replacement Parts

### Models Affected

Model	Serial Number or Year
Mercury/Mariner/Force Commander 3000/4000/4500 Remote Controls	ALL

### Situation

The Commander remote controls listed below are being phased out and replaced by the GEN II controls (see Service Bulletin 2003-06). Even though the complete remote controls may not be available, replacement parts for these controls are still available. This allows you the option of repairing the existing control rather than replacing the complete control with the GEN II style which will require new control cables.

Controls Being Phased Out	
Control Box Series	Part Number Series
3000 Series Panel Mount	827270A__
3000 Series Console Mount	88688A__
4000 Series Panel Mount	858690A__
4500 Series Console Mount	877700A__

## Replacement Parts
