Hurth Marine Gear Distributors (USA and Canada Only)

Hurth has a marine distribution program to provide service for its marine customers. Mercury MerCruiser dealers who have interest in becoming Hurth dealers for transmission sales, service, and direct processing of warranty should contact the Hurth distributor in their area for more details on obtaining parts and/or service.

Hurth distributors and their dealers may perform warranty repairs for the Hurth transmissions installed on Mercury MerCruiser engines and submit claims directly to Hurth. The Mercury MerCruiser dealer must deliver the transmission to the distributor/dealer, or ship it freight prepaid. The transmission will be repaired at no charge if the failure was determined to be caused by Hurth defects. The transmission may be picked up or returned freight collect. Warranty claims are submitted through the normal warranty processing channels for labor to remove and replace the transmission, and shipping charges. Normal rebuilding and repair service is also available through Hurth's distributor/dealership organization. Contact your area Hurth distributor for warranty and/or service.

Submit warranty claim through your normal warranty-processing channel.
