Bravo Gear Change

Models

ALL Bravo One / Two and Three Including Bravo One XZ (Excluding the Bravo XR)

Situation

The Bravo driveshaft housing gears and kits available from Mercury Precision Parts / Quick-silver are being replaced by the current production gear sets used in the Bravo 2000 series drive units. They will be supplied in complete installation kits that include the pinion gear, both driven gears, and the cone clutch and other required parts. All of the parts from the kits must be used to properly complete the installation of the new gear kit.

Part Required

Bravo Replacement Gear Set and Thrust Bearing Shim Races

Use the following charts when replacing driveshaft housing gear kits and thrust bearing shim races. The new replacement gear kits require shims, to be ordered separately.

Specifications

NOTICE					
The number stamped on the housing will now correspond to thinner shims. Refer to the table for specific information.					

If the Thrust Bearing Shim Race used with old gear Set is:			Order one of the following Thrust Bearing Shim Race sets for the new Replacement gear set:		
Part Number	Shim Race Size		Part Number	Shim Race Size	
23-87560091	.091 in.	2.31 mm	23-861782051	.051 in.	1.29 mm
23-87560094	.094 in.	2.39 mm	23-861782054	.054 in.	1.37 mm
23-87560097	.097 in.	2.46 mm	23-861782057	.057 in.	1.45 mm

Replacement Gear Sets for (S/N 0K091000 and Above)			
Gear Set	43-883473A3	replaces	43-807436A6 / 43-807436A7 and 43-856184A1
Gear Set	43-883476A3	replaces	43-807438A5 / 43-807438A6 and 43-856186A1

Tools Required

The following illustrations show the proper installation tool and the positioning of the sleeve-bearing race on the bearing chimney in the drive shaft housing and top cover for all Bravo drives, excluding the Bravo One XR.

Bearing driver 91-864220 is required to install and properly place the sleeve bearing in all 1999 and Prior Bravo drive units when installing any 43-883473A3 / 43-883476A3 / 43-883479A3 gear and clutch kit or 43-883473A4 / 43-883476A4 and 43-883479A4 Shift upgrade gear kit.

NOTE: All A3 and A4 kits require a shim change per the cross-reference list on page one of this bulletin.

91-864220

78336

Bearing driver 91-862530 is required when installing the sleeve bearing in all Bravo 2000 series drive units for gear kits 43-883473A1 / 43-883476A1 / 43-883479A1 or 43-883473A2 / 43-883476A2 / 43-883479A2.

NOTE: All A1 and A2 kits will use the original shims from the drive shaft housing that are currently installed.
