## Wireless Dielectric Grease

### Models Affected

Models Covered	Serial Number
Freshwater Wireless Series	All
Saltwater Wireless Series	All

### Description

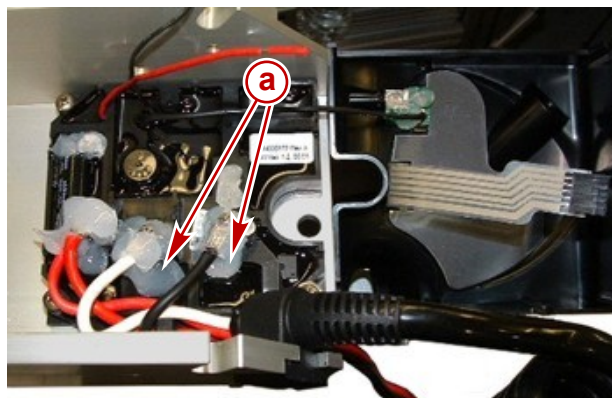

To assist in corrosion prevention, an application of Dielectric Grease should be used on exposed connections on the control board.

### Parts Required

Description	Part Number
Quicksilver Dielectric Grease Compound	92-823506-1

### Correction Instructions

Any time service is performed on a wireless model, apply Dielectric Grease over all terminals and exposed metal components (battery meter pins, antenna screw) on the controller board. The number of exposed components may vary between units. Also, apply the grease to the antenna connection and to the ribbon cable pins. Do not apply Dielectric Grease on the beeper.
