## WATER TUBE DESIGN CHANGE 6-15 H.P.(Replaces #94-1)

### MODEL

6-15 H.P./XR10/Magnum 10  
SeaPro 10/Marathon 10  
Serial # All

### CHANGE

The way in which the upper water tube attaches to the adaptor plate has been improved. These improvements required machining changes to the adaptor plate that do not allow the previous water tube components (Design I) to be compatible.

To replace your adaptor plate, you must order an adaptor plate (listed below) **AND** the appropriate DESIGN II water tube

41344--9 Adaptor Plate (No Exhaust Tube)

41344A6 Adaptor Plate (With Exhaust Tube)

### Design II Water Tube

32-826835A1 (Short )

32-826836A1 (Long )

NOTE: Discard the old water tube mounting hardware.
